

TECHNICAL DATA SHEET (TDS) TRANSMISSION AND DIFFERENTIAL OILS 80W/90

DESCRIPTION

They are prepared from premium quality mineral oils for use in gear and steering boxes. Since it does not contain EP additives, it does not damage the parts made of bronze and similar metal alloys in the gearbox.

PLACE OF USE

It can be applied in all gearboxes that operate in very light conditions and use pure mineral base oil.

BENEFITS

- It does not contain excessive pressure additive. It does not harm yellow metals in gearboxes which are operated with pure base oil.
- Contains anti-foaming additives. In this way, oil losses are prevented. Since it stops foaming, it minimizes the oxidation of the oil.

PERFORMANCE

GL-5

TYPICAL PROPERTIES

GEAR 80W/90	
Viscosity 100°C , mm ² /s, ASTM D 445	14-18
Viscosity 40°C , mm ² /s, ASTM D 445	140-170
Viscosity Indeks, ASTM D 2270	92 min
Pour Point °C , ASTM D 97	-18
Density, g/ml, @15°C, ASTM D 4052	0,878
Flash point °C, ASTM D 92	190
