Writing technical documentation Experience in build and support huge IT systems IT skills: Database: MSSQL, MySQL, Oracle, MS Access OS: Windows(Server 2003-2022), Apple - OS X, Linux, Unix, Solaris; Complied languages: C, C++, Pascal, Object Pascal, Java, C#, VB.NET, Objective-C Interpreted languages: VB, JScript, JavaScript, PHP. Java Script frameworks: jquery, Dojo, MooTools, KnockOut, Angular Frameworks: Code Igniter, CakePHP, ASP.NET, MVC.NET,.Net CORE CMS: WB, Joomla, Magento, NopCommerce, osCommerce Other: Silverlight, XAML, CSS/CSS3, Telerik.NET, CSLA, XML, JSON, Social API, HTML, XCODE, SharePoint, Microservices, Node.js, Python, Azure Graphics: working with medical images in DICOM format, painting, image correlation, image editing, etc.		
Summary of Experience: - Over 18 years of experience in the IT industry – in project management, software development, software support, IT consultancy, IT security areas. - 15 years' experience in enterprise projects, working with developer Teams from USA, Slovenia, Romania, India, Kosovo - 20+ articles in Information security and software development - https://scholar.google.com/citations?user=p_yRp2EAAAAJ - Good communication skills gained through my experience as the technician. - Working experience with clients in extreme situations. - Conflict resolution. - Good speaker. Experience in presentations for large auditory. - Experience in leadership, planning, scheduling.		
Relevant Experience (From most recent):		
Period: From – To	Name of activity/ Project/ funding organisation, if applicable:	Job Title and Activities undertaken/Description of actual role performed:
2021-Present	MIAS - DELL Technologies	Job Title: Senior Software Developer MIAS(Manufacture Integrated Asset Services) is a software which deals with the Labelling services. It has mainly 5 different User interfaces each playing its own role in the MIAS functionality. When Order is created in DOMS, it is moved to OFS. OFS will send the order to GOLF and gets the route plan. OFS then sends the GPO to GPT application. GPT application is the upstream application of MIAS. GPT application in order to send the GPO to MIAS, it should contain MIAS part.
2018-2021	KFA LIMS. Laboratory Integrated Management System for Kosovo Food Agency	Job Title: Key Expert The Laboratory Information Management System developed that reduced bureaucracy, time and costs related to information processing. This also serve as a key instrument for operative retrieval of data on the activity of laboratories. Was achieved main objective that ensured transition from a bureaucratic, discrete and time-consuming approach to an integrated, fast, transparent and electronic mechanism of information processing and conducting of decision-making process.
2016-2021	QSS – Quanex Shop Floor	Job Title: Team Leader

	Solution. https://www.quanex.com/	A distributed Informational System based on 3 level architecture: Operator->Plant->Central, build for Quanex Building Products Corp. System is architected for large amount of data that manage production for 100+ plants, that are producing Vinyl profiles, insulating glass spacers, window and door screens, fenestration components, kitchen and bath cabinet components, and engineered hardwood . That are centralized using one processing center hosted in a cloud based architecture. Solution is covering whole process of manufacturing starting from Order Upload from the customers to the shipping and customer reviews.
06.2015- 2019	LIMS - Laboratory Integrated Management System Moldova Main Beneficiary: National Food Safety Agency through its Laboratory Management and Risk Assessment Department, Moldova	Job Title: Project Manager Applications is represented by Web portal for Agriculture and Animal Laboratories. This system was created to increase the quality of Agriculture products from Republic of Moldova. This is a flexible application based on plugged in modules. Base modules are: Reception, Accounting, Inventories, Section/Department, Statistics, Reporting, Human Recourses, Equipment Inventory. Technologies: C#, MVC.NET, MS SQL Server, M-Sign,M-Pass,M-Pay, Services. • Promotion of the state's food safety policy in Moldova through risk assessment and laboratory management. • Ensuring of coordination of laboratories specialized in animal health, plant health, safety of products of animal and no animal origin, while ensuring risk assessment, planning and monitoring of waste control. • Is guided in its work by the Constitution of the Republic of Moldova, the laws and decisions of the Parliament of • RM, Presidential decrees, judgments, decisions, orders of the • Government of Moldova, orders, directives and instructions of the Ministry of Agriculture and Food Industry of the Republic of Moldova and the National Food Safety Agency and by provisions of Department's Rules.
