

OTICON | **Ruby**

Made to move

Great sound quality,
rechargeability, and connectivity
in one complete solution

oticon
life-changing technology

Keeping you connected to the things that move you

“ DID YOU KNOW?

With Oticon Ruby, you can carry on with your daily activities without having to worry about feedback or whistling coming from the hearing aids.

Hearing lets us connect to the world around us. It lets us laugh with friends during a wonderful meal. Find directions if we get lost on an exciting adventure. And helps us to feel the emotion in our favourite songs.

It's important that when you're on the move, listening to music, or in an important conversation that you don't have to worry about the performance of your hearing aids. They just work.

The new Oticon Ruby offers the best sound quality in Oticon's essential category and is filled with great features:

- New easy-to-use charger provides a full day's charge in just a few hours.
- Bluetooth® Low Energy connects you to a wide range of smartphones, TVs and computers.
- New SuperShield feedback management system prevents whistling before it occurs so you can enjoy special moments without interruptions and without drawing unnecessary attention to your hearing aids.

Help your brain with BrainHearing™ technology

Improving your hearing has many positive effects. Treating hearing loss is proven to improve people's quality of life in many ways, including easier listening, improved understanding, and even better mental health.*

“ DID YOU KNOW?

You can quick charge your hearing aids. Just 30 minutes will give you up to six hours of power.

Made for **special moments**

Prevent whistling before it occurs

You might be aware of the embarrassment caused by whistling sounds emanating from your hearing aids when hugging someone, talking on the phone or just sitting in your car. Oticon Ruby introduces the new SuperShield feedback management system that prevents whistling before it occurs to improve sound quality and your hearing aid experience.

A full day's charge in three hours

Experience the freedom to move and focus on what matters the most to you with the inductive charging solution. Place your hearing aids into the intuitive easy-to-use charger for a full day's charge in just three hours. A quick recharge delivers six hours of power in just 30 minutes.

A choice of models and features

- 5 colours
- Rechargeable option
- SuperShield feedback management system
- Compatible with Oticon ON App

Made to make
your life easier

Connect to the people around you

Oticon Ruby uses 2.4 GHz Bluetooth® low energy technology so you can watch videos, stream music, take phone calls and much more - all from your hearing aid. You can pair Oticon Ruby with multiple TV adapters and use the Oticon ON app to stream from any TV when moving around your home for a virtually seamless experience.

Control your hearing aids from your smartphone

The Oticon ON App lets you adjust volume, switch settings and check battery level from the palm of your hand. The app also offers a convenient Find My Hearing Aid feature and HearingFitness™, a tool that monitors and shows your progress towards your hearing goals.

“ DID YOU KNOW?

The Oticon ON App lets you adjust hearing aid settings from your smartphone.
