Who We Are:

DSGEAR is a manufacturer and exporter of quality products. We have a reputed tradition of manufacturing and exporting comprehensive range with 3 different departments, which are Military & Tactical Products, Police Products & Fire & Work Wear. Outstanding quality and excellent customer service have set MILITOR apart from the competition since 2014.

Quality Assurance:

We are using latest HIGH TECH materials imported from Europe & other Asian Countries. The material that we are using for Fire Products is imported from DUPONT.

Our main aim is to develop the high quality products and to provide the best possible service to our valued clients in a cost effective way. An experience of more than 20 years of highly skilled staff is added to our products meriting them to an ultimate perfection and acceptance the world over. Our factory is well equipped with highly skilled craftsmen, who put their best effort to produce the high quality products under the supervision of technical staff that monitors the production at every stage until it is finalized for dispatch.

With a manufacturing facility & quality control unit, the company takes great care in manufacturing its products under the most rigorous quality standards with the help of latest equipment in fire, motorbike and tactical industry, Where the whole manufacturing process is done under the strict and effective direct vigilance of the management. Conformity to maintain the highest standard, dedication and stringent quality control had, of course, brought us to the peak level today. But that is not enough for us. We are still striving to rise even higher just to serve you more effectively and sincerely. DSGEAR is known for exquisitely designed products all over the world. We have gradually progressed and earned the trust of many renowned figures internationally. Today DSGEAR is a name synonymous with quality.

ACU Coat - New Spec NYCO Multicam

It's built to last. Felled seams throughout the new spec ACU Coat in 50/50 NYCO fabric enhance its durability, while a bi-swing back gives you improved range of motion. Hook and loop sleeve cuff closures provide an adjustable fit, while a three-pen pocket on the sleeve and minimalist shoulder pockets add functionality. Wear the mandarin collar up or down. The ACU Coat is fade-, shrink- and wrinkle-resistant, stain- and liquid-repellent, and comes in a wide range of pattern options. All pockets and pouches are consistent with military specification FQ/PD 07-13A. Approved for active duty use by the U.S. Army.

- Sewn to military specification FQ/PD 07-13A
- 65% Nylon/ 35% Cotton fabric is comfortable and durable
- Fade-, shrink- and wrinkle-resistant
- Felled seams throughout for enhanced durability
- Fold down collar design
- Lengthened upper sleeve pocket
- Two tilted chest pockets with hook and loop closure
- Drain holes in belled pockets
- Covered two-way zipper front with cloth pull
- Bi-swing back improves range of motion
- Two upper-arm pockets with loop-facing patch for insignia
- Two-channel pen pocket on left sleeve
- Adjustable hook and loop fastener at sleeve cuffs

Reinforced seat

DS-045

BDU Shorts

The Underwater Demolition Teams (UDT) were an elite special-purpose force established by the United States Navy during World War II.

Their primary function was to reconnoiter and destroy enemy defensive obstacles on beaches prior to amphibious landings and were also the frogmen who retrieved astronauts after splashdown in the Mercury through Apollo manned space flight programs.

The UDTs pioneered combat swimming, closed-circuit diving, underwater demolitions, and midget submarine (dry and wet submersible) operations.

They were the precursor to the present-day United States Navy SEALs.

This tradition lives on in the shorts they made famous.

MILITARY CAPS & BOONIES

ANTI RIOT EQUIPMENT

DS-ARS-1000

Impact Pro Quick Deploy Anti Riot System

The Impact Pro Anti Riot Quick Deployment system is lightweight and can easily be donned and removed with ease in a riot control, cell extraction and other tactical situations.

Cost effective and compact 4 piece system.

The Impact Pro system will provide the user with protection from blunt force trauma.

The contour molded outer shell features impact ridges that are designed to disperse the force of impact, while a foam inner padding cushions the body.

Soft brush and mesh lines the inside to reduce abrasion and provide comfort for long term use.

Each piece of the Impact Pro Anti Riot System fastens and adjusts quickly with durable polypropylene and elastic straps with Velcro® closures allowing for a custom fit for a wide variety of body types.

Fire Fighter Gloves

The DSG firefighter gloves combine highest protective features with dynamic design.

It guarantees protection and optimum wear comfort for the pro firefighter. Selected materials are processed with highest care and attention. Protective gloves are part of the personal protection equipment of firefighters and thus indispensable for firefighting operations and rescue operations.

Exterior material

The back of the gloves are made of high-quality NOMEX® III which is characterized by very high impact resistance, flame and heat resistance as well as resistance to chemicals. A KEVLAR fleece is laminated on the rear side for special heat and cut-protection.

The inside is made of a carbon/silicone-coated double fabric (Doubleface Ware).

The used NOMEX® and Paraaramide materials guarantee excellent comfort, abrasion resistance and a very good grip on smooth and wet surfaces.

Membrane The membrane made from KOREAN HYPORA insert ensures breathability, waterproofing and windproofing

Lining The lining consists of a tear and cut-proof, as well as flame and heat-resistant combination made from NOMEX Kevlar® Knitwear
