

CARESCAPE R860 List of Non-Medical Device Spare Parts

The CARESCAPE R860 ventilator is ending sales and distribution to the European Economic Area (EEA) and the United Kingdom as of May 26th 2024. The items listed on the following page of the CARESCAPE R860 are spare parts for the system. Per MEDDEV 2.1/1, spare parts are defined as follows:

Spare parts supplied for replacement of existing components of a device, the conformity of which has already been established, are not medical devices. If spare parts, however, change significantly the characteristics or performances of a device with regard to its already established conformity, such spare parts are to be considered as devices in their own right.

The items listed in the following table are provided as spare parts to replace equivalent components already put into service only and do not change significantly the characteristics or performances of a device with regard to its already established conformity. As such, they are classified as non-medical devices and do not require a CE mark to enable supply to the EEA.

Therefore, while the CARESCAPE R860 will no longer be CE marked, the spare parts listed can continue to be shipped into the EEA to ensure continuity of service of existing CARESCAPE R860 devices on the market.

Part Number	Description
N126002	SCREW, SCR M4 X 8 TORX SKT CHEESE HEAD
N122017	SCREW, SCR M4 X 25.0 HEXAGON SKT CAP HEAD
N122015	SCREW, SCR M4 X 10.0 HEXAGON SKT CAP HEAD
M1247901-S	PWA VENT CTRL BRD VDOT, FAS VALVE COMPATIBILITY
