CSSD Furniture and small equipment

Complete workflow solutions

Properly designed central sterilization departments facilitate the efficient one-way flow of instruments between soiled, clean and sterile areas, reduce the risks to staff and patients of cross contamination whilst providing an optimal work environment.

The items in this brochure have been carefully selected from Steelco's extensive experience in supplying complete CSSD solutions.

Driven by customer needs

Steelco is a leading infection control solution provider, supplying the healthcare, laboratory research and pharma sectors. Active in over 100 countries, Steelco has equipped numerous world renown hospitals and counts among its customers household names in the laboratory, pharmaceutical and industrial sectors.

Driven by customer feedback, Steelco develops, manufactures and supplies solutions that maximize infection control safety, optimize processes and minimize costs. Our focus on innovation has led us to become leaders in areas such as automation.

Whether you are just wishing to replace a single small machine or designing and equipping a large central CSSD, Steelco and it's factory trained distributors are here to help you make the best decision possible that works for you and then support you every step of the way.

SOILED GOODS AREA

- Manual cleaning workstations p. 7
- Wall and floor cabinets p. 9
- Accessories p. 12
- Small ultrasonic cleaners p. 16

CLEAN AREA

- Packing tables p. 19
- Accessories to configure workstations p. 23
- Tables for general use p. 24
- Pouch sealers p. 25

STERILE AREA

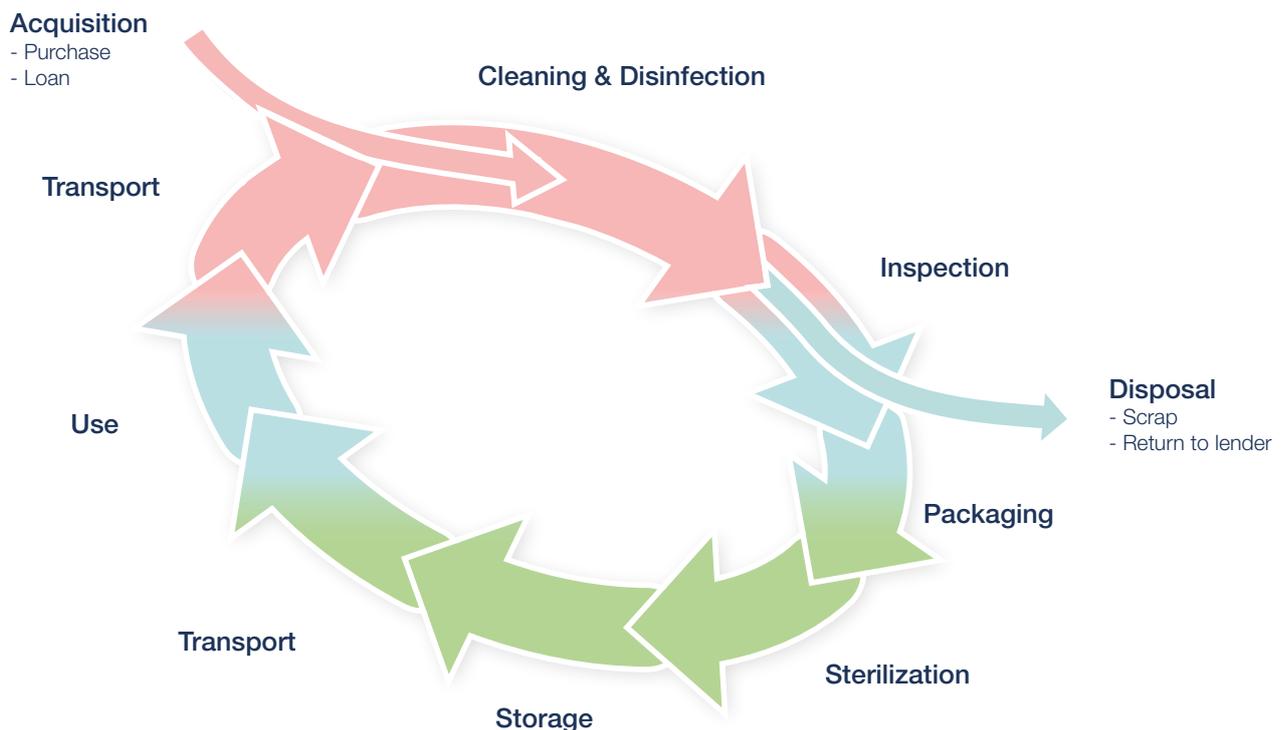

- Mobile open storage and transportation p. 29
- Closed instrument carts p. 33
- Shelving systems p. 37
- Filing and pass-through cabinets p. 43

Complete workflow solutions to meet customer needs

Whether working in a small clinic, a large centralised CSSD or an outsourced reprocessing centre, having efficient and reliable equipment is only part of the solution.

Steelco provides complete workflow solutions from when an instrument is used on a patient, through transportation, manual and automated cleaning, inspection, packaging, sterilization, storage and transportation, delivered ready and safe for use again.

Layout design and planning to unlock the power of the best equipment

Steelco understands that all CSSD facilities are different in terms of size, layout configuration, type and volume of instruments being reprocessed, level of automation, staffing levels as well as local regulations and work practices.

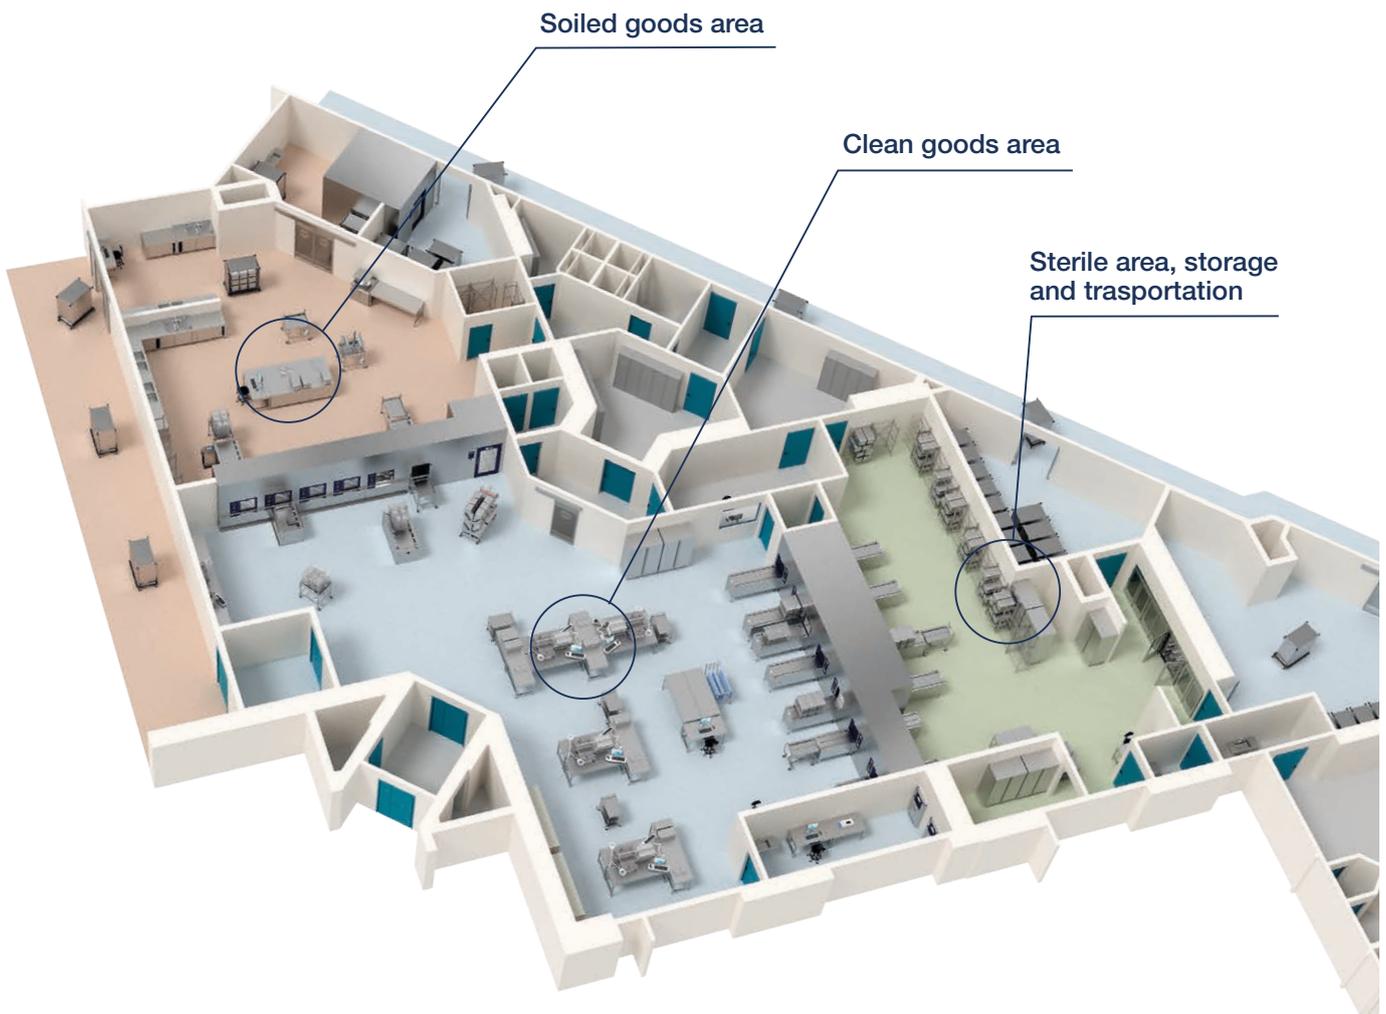

We appreciate that you are not buying a single piece of equipment, accessory or consumable. You expect that any investment in your facility, however large or small will help towards improving your goal of having the right instrument, at the right time in the right place that is safe to use, all whilst staying within budget.

With the development of minimal invasive and robotic surgery instrumentation, CSSDs need to reprocess increasingly complex lumen instruments. By working closely with instrument manufacturers, Steelco can provide safe and efficient reprocessing solutions for complex instruments.

A comprehensive range of equipment and accessories to maximize performance

This brochure contains the elements needed for designing the optimal solution for equipping individual facilities with furniture, small equipment and accessories specifically designed to comply with standards and work practices found in modern CSSDs.

Chapters are divided into the 3 zone CSSD barrier system:

Our team of planners has considerable experience in designing solutions that cover both new build and refurbishing current facilities. We can either use existing client drawings or prepare new proposals to best meet a customer's expectations whilst respecting budget needs.

Steelco has an especially strong track record in undertaking complex automation projects or customizing solutions in existing departments with architectural challenges

SOILED GOODS AREA

Soiled instruments and other used goods arrive from the operating room, wards and various departments in containers and baskets. Department layouts are designed to handle different type of goods and reprocessing requirements which may include manual cleaning and ultrasonic processing prior to cleaning and disinfection in washers and cart washers.

Furniture in this wet area is of the highest quality AISI 304 stainless steel and TIG welded for seamless smooth edges that are easy to clean and includes:

- Manual cleaning workstations
- Wall and floor cabinets
- Small equipment and accessories

Manual cleaning workstations

Steelco's modular system is flexible and designed around operator workflow. Stainless steel units are factory built and delivered pre assembled according to customer specifications for easy onsite installation.

Wall cabinet units

A choice of single or double width stainless steel 400mm - 15 ³/₄" deep wall cabinets feature a variable height shelf for easy access. Available as open wall units or fitted with either sliding or hinged doors that are handle free to eliminate dirt traps and ease cleaning.

Sink units

Two sink sizes in either single or double configuration can be seamlessly integrated into the centre or left or right hand side of worktops. A choice of faucets can be specified as well as water/air guns or a sink dosing system that monitors correct detergent dosing and water temperature.

Worktops and built in ultrasonic units

A stainless steel worktop is in either 600mm - 23 ⁵/₈" or 700mm - 27 ⁹/₁₆" depth, matching the length of base cabinets. A built in ultrasonic unit can be factory fitted for a smooth integrated finish.

Base units

600mm - 23 ⁵/₈" and 700mm - 27 ⁹/₁₆" depth, open, hinged or sliding door base units. Also available with 3 or 4 drawers.

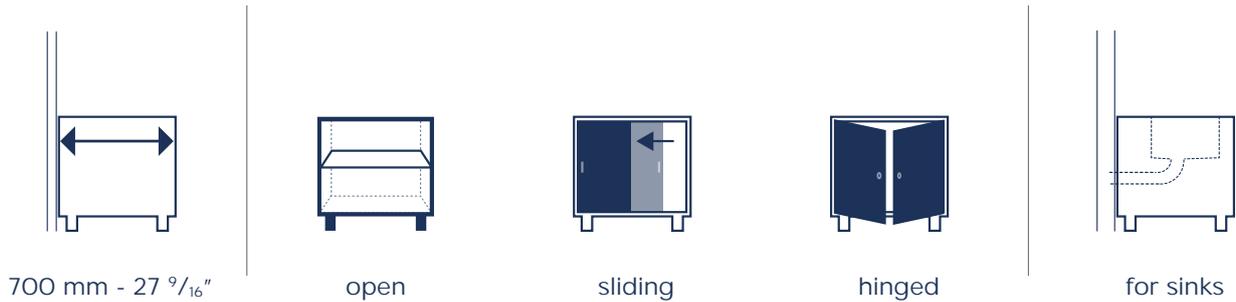

CREATING A WET AREA WORK STATION

To ensure the right workstation configuration, it is important to plan the tasks that will be performed and the flow of dirty instrument before loading them into automatic washer disinfectors. Steelco's factory trained distributors can work with you and also rely on the support of Steelco's layout planning department to configure workstations to best meet your needs.

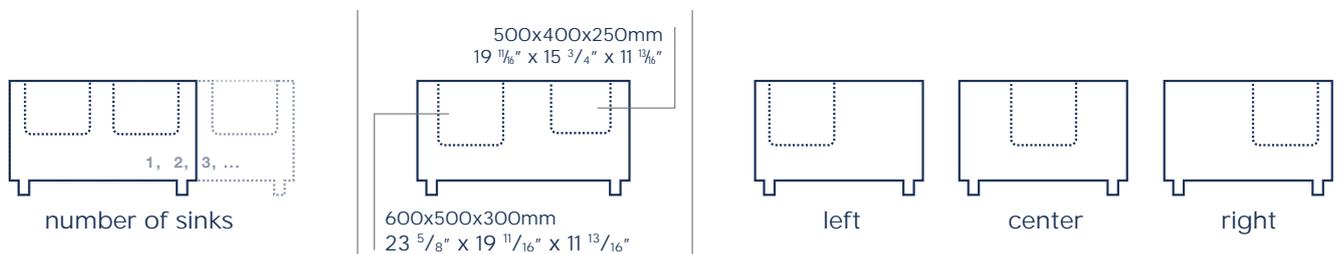

Step 1 Choose depth and design of the base cabinets

Select base cabinets: open design or with a choice of sliding or hinged doors or drawer system. Separate versions available depending whether unit(s) will contain a sink(s). Cabinets for sinks have dedicated catalogue numbers, do not contain a shelf and have a cut out for piping.

Step 2 Select sinks

Number, size and location of sinks in the workstation.

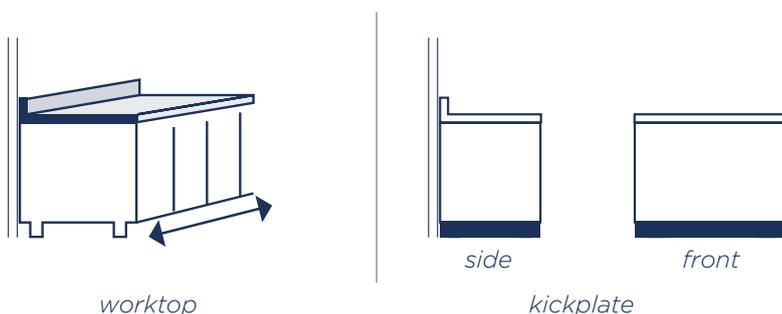

Step 3 Select accessories

Type of faucet, spray guns and other accessories such as built in ultrasonic unit.

Step 4 Select worktop and kickplate

Select worktop length as total length of cabinets. Standard worktop splash guard is 100mm - 3 ¹⁵/₁₆" high. Add a kickplate if needed in the same length as cabinets and any open ends.

WALL CABINETS

A choice of single or double width stainless steel 400mm - 15³/₄" deep cabinets feature a variable shelf for easy access. Available as open wall units or fitted with either sliding or hinged doors that are handle free to eliminate dirt traps and ease cleaning.

Open wall cabinets

KICKPLATE

Stainless steel kickplate for enclosing base of cabinets.
To be ordered according to length of base cabinet and any open ends.

code	description
999CABW08000	Kickplate

STAINLESS STEEL WORKTOPS

Stainless steel worktops with 100mm - 3¹⁵/₁₆" splash guard available in either 600mm - 23⁵/₈" or 700mm - 27⁹/₁₆" depth to match the depth of base units. Worktops need to be ordered by length, according to the length of base units.
To ensure access through facility doors, lengths over 3m are not suggested

code	description
999CABW08060	600mm - 23 ⁵ / ₈ " wide sold by metre
999CABW08070	700mm - 17 ⁹ / ₁₆ " wide sold by metre

ULTRASOUND INSTALLATION IN BENCHTOP

Ultrasound unit flush mounted installation requires a base cabinet unit for sinks.

code	description
999CABULINST	Installation of US 10, US 18, US 21, US 28 ultrasonic units into worktop (choose ultrasonic unit separately)
999CABULINSI	Installation of US 46 ultrasonic unit into worktop (choose ultrasonic unit separately)
Installation detail on technical specifications	

SINKS

Fully welded AISI 304 stainless steel and seamlessly integrated into worktops, sinks are available in large or small sizes and can be ordered as a single or double configuration for installation on the left, middle or right hand side of worktops into cabinets for sinks underneath.

ENDOSCOPY WORKSTATION

To aid ergonomics and achieve high levels of decontamination, manual cleaning endoscope workstations have been designed to avoid having to coil the endoscope up in a sink. Designed to fit Steelco EPW 100 S unit. These units are fitted complete with worktops and hot/cold mixer taps with flexible shower included.

LIQUID SOAP DISPENSER

code	description
999CABSD00000	Liquid soap dispenser

SPLASH GUARDS FOR SINKS

code	description
9992654	Height adjustable splash guard and support for sink

SINK DOSING SYSTEM

Flow based sink dosing system designed to deliver a precise volume of detergent eliminating the variability of manually filling. Can be linked into a centralised dosing system to eliminate the need to change detergent bottles. Additional standard features include temperature monitoring to ensure optimal detergent activity as well as a soak timer. Supplied complete with an easy to use installation kit. Options include a foot pedal for touchless operation and low level alarm for the detergent bottle.

code	description
999DOS000001	Flow based sink dosing system with installation kit
999DOS000002	Foot pedal for hands free sink dosing
999DOS000003	Detergent low level alarm

MANUAL POWER WASH FOR TROLLEYS

For the manual pre-cleaning or cleaning of carts and other furniture. Water pressure driven between 2 to 6 bar up to 50°C/122°F, does not need connection to power or steam supply. Automatic dosing of detergent.

Comes complete with wall mounting kit, cleaning gun, 15m - 49ft length hose and stainless steel 1/2" to 3/4" connection kit.

code	description
999MTPW00000	Manual power wash for trolleys

WALL MOUNTED EYE WASH SINK

Wall mounted eyewash sink with stainless steel bowl and intuitive easy to use large activation handle.

code	description
99912316	Wall monted eye wash sink

TRANSPORT TROLLEY FOR DECONTAMINATION CONTAINERS

Used to transport instruments in sealed containers with liquid from OR to CSSD.

code	description
999MOBSC0005	Transport trolley for decontamination container dim 410 x 690 x 1000 h mm - 16 ¹ / ₈ " x 27 ³ / ₁₆ " x 39 ³ / ₈ "
999MOBSC0008	Plastic container with lid for transportation of contaminated instruments dim 400 x 600 x 230 h mm - 15 ³ / ₄ " x 23 ⁵ / ₈ " x 9 ¹ / ₁₆ "
9992303	Tap for transportation container

SUCTION PUMP FOR USE WITH LIQUID CONTAINERS

Foot pedal operated freestanding compact suction pump and aspiration hose with direct connection to drainage system. Of AISI 304 stainless steel construction with TIG welding and a durable pump, shipped complete with foot pedal to ensure hands free operation.

code	description
999MOBSC0006	Suction pump for use with liquid containers
999MOBSC0007	Suction pump integrated under bench

REFUSE BAG HOLDERS

Single or double free standing refuse bag holders are available as well as single wall mounted unit. For wall and free standing units options are a lid + hinge. Free standing units alternatively can be ordered with a push handle and either a lid + hinge or pedal system and lid. Different color lids are available on demand.

code	description
999RFB000001	Single refuse bag - mobile holder - 360x510x910mm - 14 ³ / ₁₆ "x20 ¹ / ₁₆ "x35 ¹³ / ₁₆ "

SMALL ULTRASONIC CLEANERS

In addition to the range of larger freestanding ultrasonic units that are highlighted in a separate leaflet, Steelco offers a range of small benchtop and built in ultrasonic units up to 1 DIN basket capacity. Irrespective of which size model is chosen, they all feature impressive performance with features usually associated with larger models.

Steelco models: US 10, US 18, US 21, US 28

MAIN FEATURES

Depending on model:

- Adjustable degassing time to maximize process efficiency
- Sweep oscillation module to ensure powerful even coverage
- Storage capacity for up to 10 programs
- Waterproof membrane keyboard with LED display and sturdy handles
- Adjustable cleaning time from 0 to 99 minutes
- Temperature setting
- High output piezoelectric transducers
- Easy clean stainless steel body
- Lid and basket included as standard

Control panel of Steelco US 10 up to US 28 models

CLEAN AREA

Following automated cleaning and disinfection, goods are not sterile but are safe to handle and ready to be sorted, inspected and packed. Steelco has a modular approach to designing and building packing workstations around operators according to the tasks they need to perform. This helps to maximize productivity and safety whilst at the same time creating ergonomic solutions and a pleasant work environment.

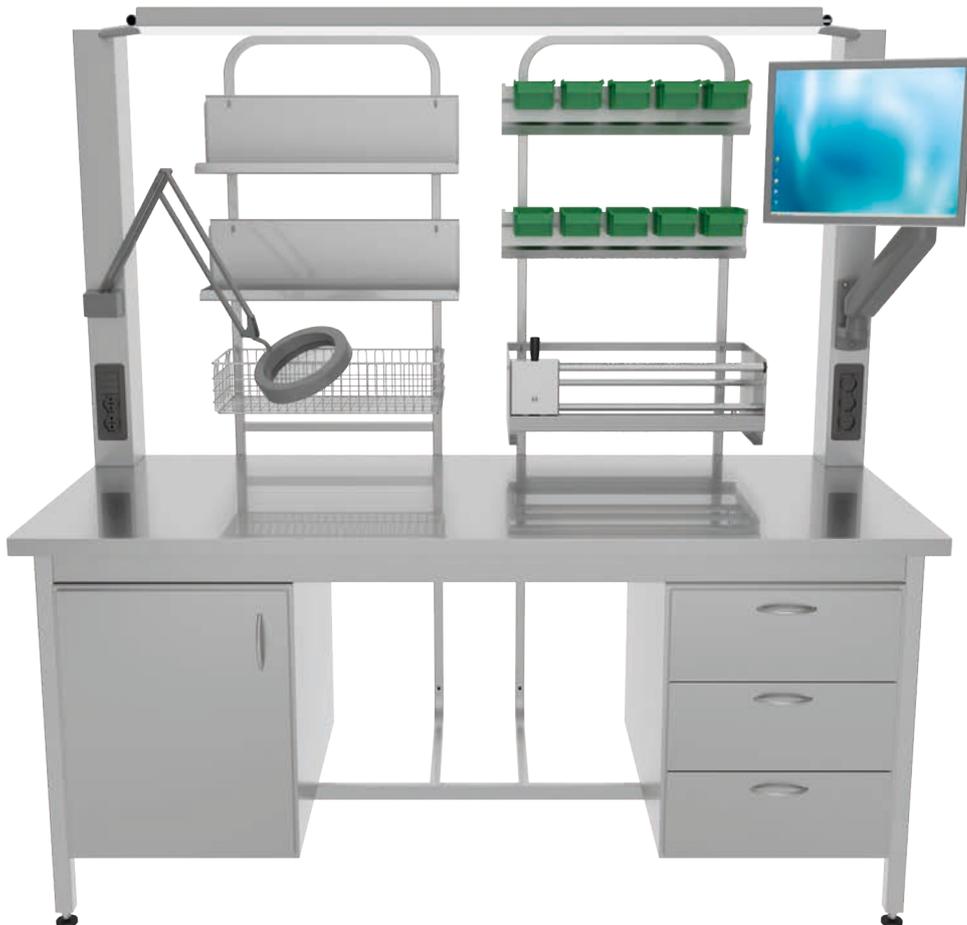

Furniture in this area is of the highest quality AISI 304 stainless steel and TIG welded for seamless smooth edges that are easy to clean and include:

- Packing tables
- Accessories to configure workstations
- Pouch sealers
- Tables for general use

PACKING WORKSTATIONS

To ensure the right workstation configuration, it is important to plan the tasks that will be performed and how much countertop space is needed to work effectively and safely. Steelco' factory trained distributors can work with you and also rely on the support of Steelco' layout planning department to configure workstations to best meet your needs.

Low reflection stainless steel top is standard.
High pressure white core top can be alternatively ordered.

CUSTOM CONFIGURED WORKSTATIONS

Creating a customized workstation is easy thanks to Steelco's modular approach.

Step 1 Choose a basic table configuration

For packing workstations, Steelco recommends tables with fixed legs and height adjustable worktops without shelves so that operators can sit or stand comfortably at the optimal ergonomic height. Tables fitted with a shelf are not recommended as they are not compatible with an under counter cupboards, drawers or PC holder.

Tables suitable for workstations are available in length from 1200mm - 47¹/₄" to 2200mm - 86³/₅".

description	code	+	dimensional code					
Fixed height table	999TAF00	+	1200	1400	1600	1800	2000	
Electrically height adjustable table	999TAV00	+		1400	1600	1800	2000	2200
Fixed height table with wheels	999TAFOW	+	1200	1400	1600	1800	2000

Electrically height adjustable table with betacryl® top and wheels	999TAVNW	+		1400	1600	1800	2000	2200
			47 ¹ / ₄ "	55 ¹ / ₈ "	63"	70 ⁶ / ₇ "	78 ³ / ₄ "	86 ³ / ₅ "

1200 and 1400mm (55¹/₈") can only accept 1 x support for baskets and accessories. 1600mm (63") and above tables can accept 1 or 2

Electrical height position with 4 memory keys 999TAV54M000

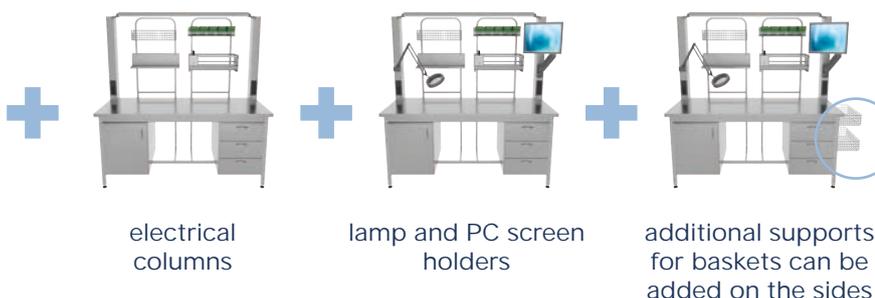

Step 2 Choose supporting structures - Support for baskets and accessories

The Support for baskets and accessories, which is attached to the back of the table, supports numerous different shelves, basket and dispenser options. 1200/1400mm tables can have 1 support fitted with either 1 or 2 for tables 1600mm - 63" or longer.

code	description
999TAASU0000	Support for baskets and accessories H=1015mm

999TAADI0005 Support for suspending 1 or 2 baskets on the side of tables

Step 3 Choose the accessories that you need

Accessories that are suitable for attaching to the support for baskets and accessories 999TAASU0000, can be easily attached on several levels.

code	description
999TAALA0001	Lamp for tables 1200-1400-1600mm (in lieu of electrical columns)
999TAALA0002	Lamp for tables 1800-2000-2200mm 70 ⁷ / ₈ "-78 ³ / ₄ "-86 ⁵ / ₈ " (in lieu of electrical columns)

999TAACS0001	Container support with 6 units of 75mm container
999TAACS0002	Container support with 4 units of 120mm container
999TAACS0003	Container support with 3 units of 200mm container

code	description
999TAASH0001	Flat Shelf 630x350mm - 24 ¹³ / ₁₆ "x 13 ¹³ / ₁₆ "
999TAASH0003	Flat Shelf 1100mm - 43 ⁵ / ₁₆ width (requires two supports for baskets and accessories)
999TAASH0004	Flat Shelf 1500mm - 59 ¹ / ₁₆ width (requires two supports for baskets and accessories)

999TAADIO055	5 compartment tilt bin dispenser
999TAADIO003	3 tilt bin dispenser

999TAAPO0000	Pouch reel cutter size 630mm - 24 ¹³ / ₁₆
999TAAPO0001	Pouch reel holder

code	description
999TASSB0001	Storage basket high 575x275x260h mm - 22 ⁵ / ₈ "x10 ¹³ / ₁₆ "x10 ¹ / ₄ "
999TASSB0002	Storage basket high with window cut out mm 575 x 275 x 260h - 22 ⁵ / ₈ "x10 ¹³ / ₁₆ "x10 ¹ / ₄ "
999TASSB0003	Storage basket low mm 575 x 275 x 130h - 22 ⁵ / ₈ "x10 ¹³ / ₁₆ "x5 ¹ / ₈ "
999TASSB0004	Pair of inclined support for baskets

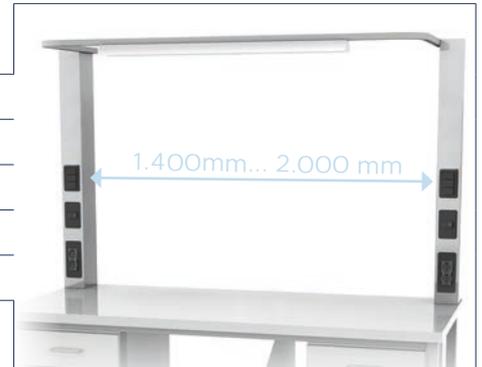

Step 4 Choose supporting structures - Electrical columns for tables

If overhead operator lighting, sockets, on /o switches are needed, the relevant pair of electrical columns based on the length of table top is selected. These also support the optional PC screen arm holder or magnifying lamp.

code	description
999TAAEL1400	1 Pair of electrical columns for table 1400mm - 55 ¹ / ₈ " long
999TAAEL1600	1 Pair of electrical columns for table 1600mm - 63" long
999TAAEL1800	1 Pair of electrical columns for table 1800mm - 70 ⁷ / ₈ " long
999TAAEL2000	1 Pair of electrical columns for table 2000mm - 78 ³ / ₄ " long
999TAAEL2200	1 Pair of electrical columns for table 2200mm - 86 ⁵ / ₈ " long

Electrical columns standard equipment is: 4 electrical sockets (Schuko type), 3 on/o switches (for: general, overhead light, magnifier light), overhead 2000 lumen light, supports for optional magnifying lamp or PC monitor holder.
Additional electrical sockets, on o switches, RJ 45 network sockets etc. Can be ordered according to customer needs.
Not available for sale in USA.

code	description
999TAALA0000	Examination lamp with x 5 magnification led (suitable for connection to electrical columns and table top)
999TAASUPC00	PC Screen arm holder up to 9 Kg. (for connection to electrical columns)

Step 5 Choose under worktop storage option

Select drawer units, cupboard or PC tower holder as needed

code	description	Image
999TAADR0001	1 drawer unit 150mm - 5 ⁷ / ₈ " high	
999TAADR0002	2 drawer unit 150mm - 5 ⁷ / ₈ " high each, total 300mm - 11 ¹³ / ₁₆ "	
999TAADR0003	3 drawer unit 150mm - 5 ⁷ / ₈ " high each, total 450 mm 17 ¹¹ / ₁₆ "	
999TAADR0004	Lock and key for a single drawer	

code	description	Image

STAINLESS STEEL WORKTABLES

Made of high quality AISI 304 stainless steel, Steelco's CSSD worktables for wet or dry goods are robust and ideal for heavy-duty areas.

Reinforced frames ensure stability and durability with components TIG welded for joint free smooth surfaces to aid cleaning and maintain hygiene.

Available in lengths from 1200mm - 47¹/₄" to 2200mm - 86⁵/₈", tables are 800mm - 31¹/₂" wide, supplied either with fixed feet or with 360° rotating 125mm - 4¹⁵/₁₆" easy glide antistatic castors with brakes on 2 wheels.

To ensure optimal working ergonomics, tables are available either as fixed height or with manual or electrical adjustment with options of an integrated fixed or variable height shelf for storage purposes.

STEELCO PS POUCH SEALER RANGE

The Steelco range of rotary pouch sealers and accessories ensure the aseptic integrity of single use sealable pouches including Tyvek® by consistently providing a perfect seal. Models feature validatable processes according to ISO 11607-2 and guidance document ISO/TS 16775 with the monitoring of temperature, contact pressure and sealing speed dependent on model to provide the optimum seal that is strong enough yet easy to peel.

Steelco sealers are made of robust stainless steel with flat surfaces for ease of cleaning and feature energy saving functions including automatic standby function. Versions are available with integrated printers that adjust the font size to the pouch width. Several models can be linked to instrument tracking systems and printers.

PS 400 POUCH SEALER

cod. 99912150

The most advanced pouch sealer available.

- ☑ Low energy consumption
- ☑ Intuitive 4.3" crystal clear touch screen display
- ☑ Advanced connectivity. Communication, programming and repeating function and integrated printer with automatic font size adjustment.

Easy to use display

Wide range of connectivity options

PS 300 POUCH SEALER

cod. 99911311

- ☑ Integrated printer with automatic font size adjustment.
- ☑ Adjustable sealing temperature, speed (up to 13 m per minute) and pressure with unit counter.
- ☑ Automatic standby and fast start up function to minimize energy use but maximize output.

Programmable and operated through colour touch screen panel or via a barcode scanner or external computer.

RS232, USB and Ethernet connection as standard.

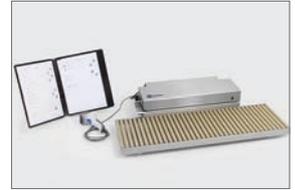

PS 200 POUCH SEALER

Check price list code for correct electrical voltage.

- ☑ Integrated printer with automatic font size adjustment.
- ☑ Programmable and operated via touch keys or via a barcode scanner or external computer. RS232 connection.
- ☑ Sealing temperature, speed and pressure monitoring according to ISO 11607-2.
- ☑ Automatic standby and fast start up function to minimize energy use.

PS 100 POUCH SEALER

Check price list code for correct electrical voltage.

- ☑ Programmable and operated via touch keys.
- ☑ Sealing temperature and pressure monitoring according to ISO 11607-2.
- ☑ Automatic standby and fast start up function to minimize energy use but maximize output.

ACCESSORIES

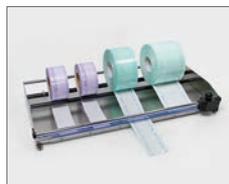

Accessories include single and twin level cutting devices, roller conveyor or tray that can be integrated into workstations to provide optimal workflow efficiency and user ergonomics.

PS Pouch seal cutter
For the storage and cutting of different size pouch reels.

cod. 99911314

2nd level reel storage available as option.

cod. 99911322

PS barcode scanner and software
Can operate PS 400, PS 300 and PS 200 sealers, with automatic assignment to the appropriate device function using barcode lists reading the custom specific packaging information.

cod. 99911313

PS roller conveyor
Compatible with all Steelco PS pouch sealers.

W x D x H:

830 x 280 x 60mm

cod. 99911312

PS barcode printer
Prints labels with batch identification, sterilisation date, type, expiration.

cod. 99911321 Label printer for PS 400

cod. 99912565 Label printer for PS 300

cod. 99912566

Labels 49x38mm 1050 pcs

cod. 99912567

Labels 105x149mm 275 pcs

PS tray

Compatible with all Steelco PS pouch sealers.

STERILE AREA - Storage and transportation solutions

Once goods have been sterilized, they are in the sterile zone and either transported immediately to their point of use or stored ready for transfer. Steelco has a number of different storage, transfer and transport solutions for DIN and ISO size containers as well as wrapped goods and pouches.

Shelving is available in both stainless steel and aluminium structures with solid or wire shelves or runners for baskets.

Pass through cabinet effectively separates the sterile area from the outside and enables the loading of containers and wraps into trolleys either from inside of the sterile area or from the outside.

Steelco's wide range of options enables you to make the best use of available space:

- Mobile open storage and transportation
- Closed instrument carts
- Shelving systems
- Filing and pass through cabinets

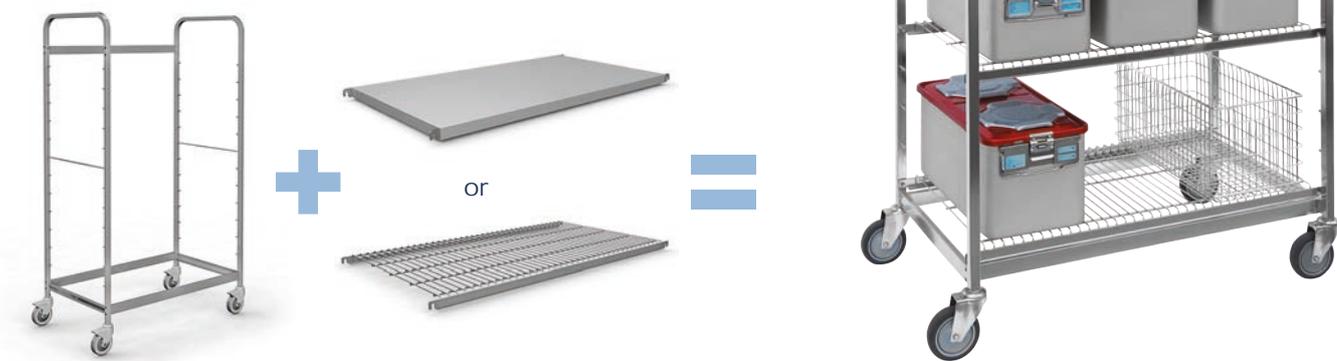

MOBILE OPEN STORAGE AND TRANSPORTATION

A wide range of different open mobile transport solutions meet the distribution needs of DIN and ISO basket or container systems and pouches with products available for internal storage and transportation within CSSDs or to their point of use.

Mobile open storage and transport systems are TIG welded, made of AISI 304 stainless steel and fitted with 2 fixed and 2 swivel antistatic wheels, with brakes to aid manoeuvrability and reduce floor wheel marks.

Steelco's mobile storage transport systems can if required be cleaned and disinfected in cart washers.

Mobile trolleys with shelves for baskets or containers

Available in 1000, 1200, 1400mm - 39³/₈" , 47¹/₄" , 55¹/₈" lengths these mobile shelf trolleys hold either solid or wire shelves that are adjustable every 110mm- 4⁵/₁₆". Mostly used within CSSDs.

code	description	dimension L x W x H
999MOBNST000	Narrow shelf trolley	600 x 600 x 1800mm - 23 ⁵ / ₈ " x 23 ⁵ / ₈ " x 70 ⁷ / ₈ "

CLOSED INSTRUMENT CARTS

Sterile instrument transported between the CSSD and the OR need to be protected to ensure that they do not become contaminated or contaminate areas that they pass through.

Steelco has a comprehensive range of closed instrument carts made of stainless steel or light aluminium for the transportation of both DIN and ISO containers and baskets. Models are available with both shelves and guides. All models can be fitted with a range of complementary accessories.

CLOSED INSTRUMENT TROLLEY – FULLY WELDED STAINLESS STEEL

Made of AISI 304 stainless steel with an anti-torsion chassis, all joints are TIG robot welded to ensure smooth surfaces. A ribbed roof for water drainage and reinforced double sheet doors with an interchangeable silicone rubber seal provide an effective barrier against contamination. Anti marking 160mm - 6⁵/₁₆" rubber wheels with 2 swivelling and fixed wheels with brakes ensure ease of manoeuvrability.

CLOSED INSTRUMENT TROLLEY - ALUMINIUM LIGHT ALLOY

Of lightweight aluminium construction, and featuring a patented closing system with gaskets integrated into doors that can open 270° wide. Units are available with shelves or runners for DIN or ISO systems with a full range of complementary accessories. Models with guides have runners every 114mm - 4½" and are suitable for baskets. As with all aluminium products, it is recommended to clean these transport trolleys with neutral or aluminium safe detergents.

STAINLESS STEEL SHELVING

Entirely made of AISI 304 stainless steel with all joints TIG welded. Of modular design, with up to 1200kg load capacity, easy to assemble without the use of special tools, end sections are electro polished. Can accommodate DIN or ISO containers or basket systems. Available with adjustable solid shelves or with wire shelves or guides.

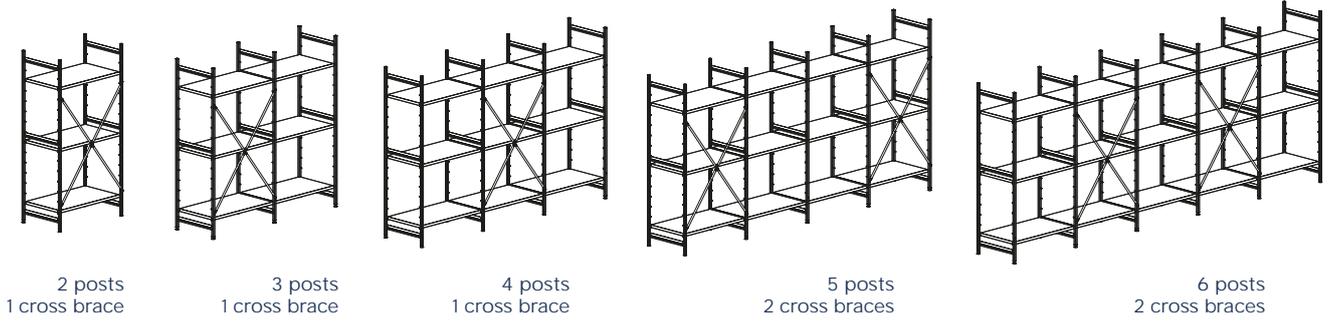

- If shelving units share common posts, it is recommended to use a cross brace every 2nd unit.
- When using ISO or DIN basket guides, use appropriate Z shape brace per unit.

Steelco PS Pouch sealer range

Main purpose of every packaging system for medical products, which are sterilized during the final packaging, is maintaining the sterility until use or until aseptic preparation at the patient. The Steelco range of rotary pouch sealers and accessories ensure the aseptic integrity of single use sealable pouches.

Models are equipped with the monitoring of temperature, contact pressure and sealing speed to provide the optimum seal that is strong enough yet easy to peel.

Steelco PS sealers are made of robust stainless steel with flat surfaces for ease of cleaning. The range is equipped with energy saving functions including automatic standby function.

Versions are available with integrated printers that adjust the font size to the pouch width and touch screen panels.

Several models can be linked to instrument tracking systems and printers.

Dimension and models:

- **Steelco PS 400**
WxDxH: 560 x 255 x 145 mm
Weight 15,5 Kg
- **Steelco PS 200**
WxDxH: 560 x 255 x 145 mm
Weight 15 Kg
- **Steelco PS 100**
WxDxH: 560 x 225 x 145 mm
Weight 12 Kg

Standard compliances

The sealing machine meets the requirements of EN ISO 11607-2 and the resulting ISO/TS 16775:2014 guideline for validating the sealing process.

In accordance with the intended use, the CE marking is displayed based on the following EU directives: 2006/42/CE, 2011/65/CE and 2004/108/CE.

Medical device directive 93/42/CE is not applicable to sealing machine.

Sealable materials

Pouches and reels in accordance with EN 868-5 and EN ISO 11607-1*

Paper pouches in accordance with EN 868-4* HDPE (e.g. Tyvek™, 1059B, 1073B and 2FS)* Aluminum laminate film

* also with side gusset

The correct sealing temperature must be identified by means of test sealings. The machine output depends on the condition of the sealing material used.

Non-sealable materials

Polyethylene film, Soft PVC film, Hard PVC foils, Polyamide film, Polypropylene film.

PS barcode scanner and software

Can operate PS 400 and PS 200 sealers, with automatic assignment to the appropriate device function using

barcode lists reading the custom specific packaging information.

The machine can be connected through an interface directly to the batch documentation system.

Standard features

The printing process is triggered by means of a photoelectric cell when the pressure is switched on and the activated print data is printed onto the sealed packaging.

Steelco PS 400

Integrated printer with automatic font size adjustment.

Adjustable sealing temperature, speed (up to 13 m per minute) and pressure with unit counter.

Automatic standby (after approximately 30 seconds) and fast start up function.

Programmable and operated through an colour touch screen panel RS232, two USB port and Ethernet connection as standard.

Low power consumption.

Steelco PS 200

Integrated printer with automatic font size adjustment.

Programmable and operated via touch keys.

RS232 connection.

Sealing temperature, speed and pressure monitoring.

Automatic standby (after approximately 30 seconds) and fast start up function.

Steelco PS 100

Programmable and operated via touch keys.

Sealing temperature, speed and pressure monitoring.

Automatic standby (after approximately 30 seconds) and fast start up function..

The precise name and the serial number are written on the type plate attached on a side of the machine.

Sterilization packaging must be inserted from the left-hand side, always with the side to be printed face down. The drive is switched on automatically.

Remove the sealed sterilization packaging and leave briefly to cool.

The material to be sealed must be sealed according to the manufacturer's instructions.

Easy maintenance thanks to frontal access.

Specifications

	PS 400	PS 200	PS 100
Sealing properties			
Sealing distance from edge	0-35mm	0-35mm	0-35mm
Seal width (up to 19mm on request)	12mm	12mm	12mm
Sealing speed	5-13m per min	10m per min	10m per min
Distance to edge of instrument in pouch	> 30mm	> 30mm	> 30mm
Power	120 W	390W	390W
Sealable pouches and reels	*	*	*
Tyvek [®] , non woven, SMS and other EN ISO 11607-1 approved	*	*	*
Reverse feed	*	*	*
Sealing temperature	max 220° C	max 220° C	max 220° C
2°C temperature regulation tolerance with overheat protection	*	*	*
Contact pressure	100N	100N	100N
Piece counter	*	*	
Printing	*	*	
Packaging time + date, expiry, batch, operator and device	*	*	
Automatic font size adjustment according to pouch size	*	*	
Print image rotation and print barcode	*		
Print out of sealing test parameters	*	*	
Communications			
RS 232	*	*

ALLEGATO CERTIFICATO N. 1050.2021 ANNEX CERTIFICATE N.

Attività:
Activities:

Progettazione, produzione, installazione ed assistenza di lavastrumenti e lavacarrelli a termodesinfazione, lavastrumenti per decontaminazione, sterilizzatori a vapore e/o a bassa temperatura, lavapadelle, lavastrumenti ad ultrasuoni ed apparecchi per il lavaggio, disinfezione e sterilizzazione chimica degli endoscopi termolabili. Progettazione, produzione, installazione ed assistenza di apparecchi per il lavaggio e disinfezione di vetreria, strumenti, carrelli, contenitori e parti di macchine speciali per il settore farmaceutico. Progettazione e commercializzazione di soluzioni disinfettanti per dispositivi medici invasivi e non invasivi. Commercializzazione di lavastrumenti per decontaminazione, sterilizzatori a vapore e relativi accessori. Commercializzazione di arredi e attrezzature/accessori a supporto dei processi di lavaggio, disinfezione, sterilizzazione e stoccaggio di attrezzature e strumenti. Processi: lavorazioni meccaniche, saldatura lamiere, assemblaggio, collaudo, imballaggio e spedizione di prodotti finiti.

Design, manufacturing, installation and service of washer disinfectors and trolley washers, washers for decontamination, steam and/or low temperature sterilizers, bedpan washers, ultrasonic washers and washers for the disinfection and the chemical sterilization of the thermolabile endoscopes. Design, manufacturing, installation and service of equipment for the washing and disinfection of glassware, instruments, trolleys, carboys and parts of special machines for the pharmaceutical industry. Commercialization of decontamination washers, steam sterilizers and their accessories. Commercialization of furniture/accessories to support washing, disinfection and sterilization processes as well as for the storage of instruments and tools. Processes: mechanical works, welding of metal sheets, assembly, testing, packaging and shipping of finished products.

Design, Produktion, Installation und Wartung von Reinigungsdesinfektionsautomaten und Wagenwaschanlagen zur Thermodesinfektion, Dekontaminationsgeräeten, Dampf- und / oder Niedertemperatur-Sterilisatoren, Steckbeckenspueler, Ultraschallreinigungsgeraeten und Geräeten zum Waschen, Desinfizieren und chemischen Sterilisieren von thermolabilen Endoskopien. Entwurf Herstellung Installation und Wartung von Anlagen zum Waschen und Desinfizieren von Glaswaren, Instrumenten, Wagen, Containern und Teilen von Spezialmaschinen für die pharmazeutische Industrie. Design und Marketing von Desinfektionslösungen für invasive und nicht-invasive Medizinprodukte. Vermarktung von Dekontaminationsgeräeten, Dampfsterilisatoren und dazugehörigem Zubehör. Verkauf von Möbeln und Geräeten / Zubehör zur Unterstützung der Reinigungsprozesse, Desinfektion, Sterilisation und Lagerung von Geräeten und Werkzeugen.
