

# DJI Matrice 300 Series BS60 Intelligent Battery Station (Universal Edition)

- Large storage space up to 12 TB50 Intelligent Batteries, two CrystalSky / Cendence Intelligent Batteries and one CrystalSky / Cendence Battery Charging Hub.
- Charge up to eight TB50 batteries at a time. Multiple ports allow you to charge the Inspire 2 remote control, CrystalSky / Cendence Intelligent Battery and a mobile device.
- When a TB50 smart battery is being charged, the Battery Station LCD displays the current software version.
- Fast, simple and smart discharge function improves battery maintenance for storage and travel.
- A built-in cooling fan ensures that each battery remains within safe operating range. The battery station automatically cancels the charge and discharge to avoid any safety hazards when overheating is detected.

The wheels and telescopic handle make the Battery Station convenient for travel.

Intelligent Flight Battery	Charging time	Using BS60 Intelligent Battery Station: 220V input: 60 minutes (fully charging two TB60 batteries), 30 minutes (charging two TB60 batteries from 20% to 90%) 110V input: 70 minutes (fully charging two TB60 batteries), 40 minutes (charging two TB60 batteries from 20% to 90%)
BS60 Intelligent Battery Station	Dimensions	501*403*252mm
BS60 Intelligent Battery Station	Net Weight	8.37kg

BS60 Intelligent Battery Station	Maximum Capacity	TB60 Intelligent Flight Battery × 8 WB37 Intelligent Battery × 4
BS60 Intelligent Battery Station	Input	100-120 VAC, 50-60 Hz / 220-240 VAC, 50-60 Hz
BS60 Intelligent Battery Station	Max. Input Power	1070W
BS60 Intelligent Battery Station	Output Power	100-120V: 750W 220-240V : 992W
BS60 Intelligent Battery Station	Operating Temperature	-4°F to 104°F (-20°C to 40°C)
