

MEDIAWEL PERFORMANCE

This application note concerns products manufactured by Alliance Bio Expertise (ABE), specifically the MEDIAWEL 10 range.

We confirm that MEDIAWEL 10 is equipped with a cap that allows the addition of supplements. The system also supports the creation of up to 50 customizable programs. Each program can be reused, modified, or deleted.

Regarding media preparation capacity, the MEDIAWEL 10 has a standard capacity of 10 liters, with a minimum volume of 1 liter. In a stationary configuration, it is possible to prepare up to 12 liters of broth media.

For further information or assistance, please contact Alliance Bio Expertise.
