

## Eickemeyer® Wood's Lamp

When a hair is plucked from a cat with *M. canis* dermatophytosis, 50% of *M. canis* strains produce an apple green colour when illuminated. Helps detect fungal, bacterial, and parasitic infections with its large magnifying window.

- ▶ Window Size: 10.5 x 7 cm
- ▶ 3 Diopters (175% magnification)
- ▶ High depth of focus
- ▶ 9 Watt UV light
- ▶ Wavelength: 360 nm
