

Letter of reference

To whom it may concern:

Dear Sirs,

We wish through this letter to inform you that our company bought a Landfill Leachate Treatment Plant from Hofstetter Environmantal. Contract was signed in August 2020 and had a value of 650.000 euro and the compleat value of the project was 5.000.000 euro.

For the Landfill Leachate Treatment Plant from Hofstetter we are making service and technical assistance upon request with Hofstetter service department and we use original consumables and chemicals provided by Hofstetter.

We have an excellent business relation thanks to the responsibility, implication and proactivity of Hofstetter employees.

In the same time, the Hofstetter Landfill Leachate Treatment Plant with double stage RO(reverse osmosis using a high performance technology with DT(Disc Tube) modules), that we have in this moment is working properly in excellent conditions(recovery rates are between 70% to 80%) at our sanitary landfill Ghadir-Cost Brava Beirut, Lebanon. We have the pleasure to recommend you through this the Hofstetter products and services in Leachate Treatment area for similar projects.

Yours faithfully,

For and in behalf of whom it may concern.
