Satisfactory Letter of Kalay Substation Project

To Siemens Transformer (Wuhan) Co., Ltd.

The letter is to express our thanks and satisfaction of your two units "50 MVA / 230 kV" transformers for kalay Substation Project.

The transformer has been put into use since 2014. The transformer has been properly installed and pasted site test successfully. It has been running steadily with high performance and no oil leakage. Due to the high quality and reliability, it is easy to maintenance. We appreciate Siemens Quality and looking forward further opportunity with Siemens.
