

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

Revision date 2-Jan-2023

Revision Number 5

According to Article 31 of the Regulation (EC) No 1907/2006 (REACH), a Safety Data Sheet (SDS) must be provided for hazardous substances or preparations. This product does not meet the classification criteria of the Regulation (EC) No 1272/2008 (CLP). Therefore, such document is outside the scope of Article 31 of REACH and the requirements for content in each section do not apply.

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

### 1.1. Product Identifier

**Product group:** Steam Activated Granular Carbon; S-GAC

**Product names:**

DARCO® 12X20	NORIT® GAC 1240	NORIT® GAC 830 PLUS	NORIT® NRS EA 3-4
DARCO® 12X40	NORIT® GAC 1240 A	NORIT® GAC 830R	NORIT® NRS GA 0.5-2.5
DARCO® 20X40	NORIT® GAC 1240 AF	NORIT® GAC 830RL	
DARCO® 4X12	NORIT® GAC 1240 AFMX	NORIT® GAC 830RS	NORIT® PK 0.25-1 M
DARCO® 4X12B	NORIT® GAC 1240 AW	NORIT® GAC 830W	NORIT® PK 0.25-1
DARCO® 8X30 A	NORIT® GAC 1240 EN	NORIT® GAC 830WI	NORIT® PK 0.25-1 NG
	NORIT® GAC 1240 EV	NORIT® GAC 840R	NORIT® PK 1-3
DARCO® BG 1	NORIT® GAC 1240G	NORIT® GAC H-2-12S	NORIT® PK 1-3 M
DARCO® BG 1P	NORIT® GAC 1240 PLUS		NORIT® PK 2-4 M
DARCO® BGH	NORIT® GAC 1240 PLUS AQ	NORIT® G 1220 EXTRA	NORIT® PK 3-5
DARCO® H2S	NORIT® GAC 1240 PLUS N	NORIT® G 1230 EXTRA	NORIT® PK 3-5 M
DARCO® H2SG	NORIT® GAC 1240 PLUS NR	NORIT® G 2040 EXTRA	
DARCO® H2S HF	NORIT® GAC 1240AFX		NORIT® R 0.8 AGRU
DARCO® H2S LP	NORIT® GAC 1240R	NORIT® GCN 1020	NORIT® R 0.8 EXTRA
DARCO® MRX	NORIT® GAC 1240W	NORIT® GCN 1240	NORIT® R 1 EXTRA
	NORIT® GAC 1240 XCT	NORIT® GCN 1240 LC	NORIT® R 2030
HYDRODARCO® 3000	NORIT® GAC 2442	NORIT® GCN 1240 PLUS	NORIT® R 2030 CO2
HYDRODARCO® 4000	NORIT® GAC 300	NORIT® GCN 1840	NORIT® R 2030W

	NORIT® SoilPure 12x20		

**REACH registration number:** 01-2119488894-16

**Synonyms:** Activated carbon

### **1.2. Relevant identified uses of the substance or mixture and uses advised against**

**Recommended use:** Liquid and vapor applications (purification, decolorization, separation, catalyst and deodorization)

**Uses advised against:** None known.

### **1.3. Details of the supplier of the safety data sheet**

Norit Nederland B.V.  
Astronaut 34  
Amersfoort  
3824 MJ  
The Netherlands  
Tel: +31 33 464 8911  
Fax: +31 33 461 7429

**E-mail address:** sdssupport@norit.com

### **1.4. Emergency telephone number**

**Emergency Telephone Number:** The Netherlands CHEMTREC: +(31)-858880596  
International CHEMTREC: +1 703-741-5970 or +1-703-527-3887  
US: CHEMTREC 1-800-424-9300 or 1-703-527-3887

## **2. HAZARDS IDENTIFICATION**

### **2.1. Classification of the substance or mixture**

***Regulation (EC) No 1272/2008***

This substance is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

### **2.2. Label elements**

**Signal word**

None

#### Hazard statements

None

#### Precautionary Statements - EU (§28, 1272/2008)

None

### 2.3. Other Hazards

This substance does not fulfill the criteria for PBT or vPvB.

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Activated carbon (especially when wet) can deplete oxygen from air in enclosed spaces, and dangerously low levels of oxygen may result. Prior to entering a confined space that contains or previously contained activated carbon, the space should be evaluated for oxygen and carbon monoxide concentrations, and any other hazards, by a qualified person.

Workers should also take appropriate precautions when dealing with spent (used) activated carbons which may exhibit hazardous properties associated with the adsorbed materials.

Avoid generation of dust. Powdered material may form an explosible dust-air mixture. If transferring product under pressure, avoid generation of dust if an ignition source is present.

Activated carbons have high surface area which may cause self-heating during oxidation. See section 5.

Do not generate dust because airborne respirable crystalline silica may be generated.

Dust contact with the eyes can lead to mechanical irritation. Contact with dust can cause mechanical irritation or drying of the skin. Dust may be irritating to respiratory tract.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances

Chemical name	Weight-%	REACH registration number	EC No	Classification according to Regulation (EC) No. 1272/2008 [CLP]	Specific concentration limit (SCL)	M-Factor	M-Factor (long-term)
Activated Carbon 7440-44-0	100	01-2119488894-16	931-328-0	-	-	-	-

## 4. FIRST AID MEASURES

### 4.1. Description of first aid measures

#### **Inhalation**

If cough, shortness of breath or other breathing problems occur, move to fresh air. Seek medical attention if symptoms persist. If necessary, restore normal breathing through standard first aid measures.

#### **Eye contact**

In case of eye contact, immediately flush eyes with plenty of water for at least 15

minutes. Get medical attention if symptoms occur.

**Skin contact** Wash skin with soap and water. Get medical attention if symptoms occur.

**Ingestion** Do NOT induce vomiting. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person.

#### **4.2. Most important symptoms and effects, both acute and delayed**

**Symptoms** See Section 11 for additional Toxicological Information.

#### **4.3. Indication of any immediate medical attention and special treatment needed**

**Note to physicians** Treat symptomatically.

### **SECTION 5: Firefighting measures**

#### **5.1. Extinguishing media**

**Suitable Extinguishing Media** Use foam, carbon dioxide (CO<sub>2</sub>), dry chemical or water spray. A fog is recommended if water is used.

**Unsuitable extinguishing media** Do not use a solid water stream as it may scatter and spread fire. DO NOT USE high pressure media which could cause formation of a potentially explosible dust-air mixture. In the event of a fire, spreading large amounts of activated carbon is not recommended due to the risk of creating uncontrolled dust emissions.

#### **5.2. Special hazards arising from the substance or mixture**

**Specific hazards arising from the chemical** Burning produces irritant fumes. If transferring product under pressure, avoid generation of dust if an ignition source is present.

Activated carbons have high surface area which may cause self-heating during oxidation. An adequate air gap between packages of activated carbon is recommended to reduce risk of propagation of the event. Activated carbon is difficult to ignite and tends to burn slowly (smolder) without producing smoke or flame.

**Hazardous combustion products** Materials allowed to smolder for long periods in enclosed spaces may produce amounts of carbon monoxide which reach the lower explosive limit (carbon monoxide LEL = 12.5% in air), Used activated carbon may produce additional combustion products which are based on the substance(s) adsorbed, Carbon monoxide, Carbon dioxide (CO<sub>2</sub>)

#### **5.3. Advice for firefighters**

**Special protective equipment and precautions for fire-fighters** In case of fire: Wear self-contained breathing apparatus. Use personal protection equipment.

### **SECTION 6: Accidental release measures**

#### **6.1. Personal precautions, protective equipment and emergency procedures**

**Personal precautions** Avoid generation of dust. Ensure adequate ventilation. Use personal protective

---

equipment as required. See section 8.

### **6.2. Environmental precautions**

**Environmental precautions** No special environmental measures are necessary. Local authorities should be advised if significant spillages cannot be contained.

### **6.3. Methods and material for containment and cleaning up**

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Avoid dry sweeping and use water spraying or vacuum cleaning systems to prevent airborne dust generation. If the spilled material contains dust or has the potential to create dust, use explosion-proof vacuums and/or cleaning systems suitable for combustible dusts. Use of a vacuum with high efficiency particulate air (HEPA) filtration is recommended. Do not create a dust cloud by using a brush or compressed air. Pick up and transfer to properly labeled containers. Spent granular activated carbon may be recyclable. Dispose of virgin (unused) carbon (surplus or spillage) in a facility permitted for non-hazardous wastes. Spent (used) carbon should be disposed of in accordance with applicable laws. Do not reuse empty bags: dispose of in a facility permitted for non-hazardous wastes. See section 13.

### **6.4. Reference to other sections**

**Reference to other sections** See section 8 for more information. See section 13 for more information.

## **SECTION 7: Handling and storage**

### **7.1. Precautions for safe handling**

**Advice on safe handling** Avoid contact with skin and eyes. Avoid generation of dust. Do not breathe dust. Provide appropriate local exhaust ventilation at machinery and at places where dust can be generated. Do not create a dust cloud by using a brush or compressed air. Dust can form an explosive mixture with air.

Activated carbons have high surface area which may cause self-heating during oxidation. Take precautionary measures against static discharges. All metal parts of the mixing and processing equipment must be earthed/grounded. Ensure all equipment is electrically earthed/grounded before beginning transfer operations. Fine dust is capable of penetrating electrical equipment and may cause electrical shorts. If hot work (welding, torch cutting, etc.) is required the immediate work area must be cleared of product and dust.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

### **7.2. Conditions for safe storage, including any incompatibilities**

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat. Keep away from sources of ignition - No smoking. Do not store together with strong oxidizing agents. Do not store together with volatile chemicals as they may be adsorbed onto product. Keep in properly labeled containers. Activated carbon is difficult to ignite and tends to burn slowly (smolder) without producing smoke or flame. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive

mixture if they are released in the atmosphere in sufficient concentrations. Prior to entering a confined space that contains or previously contained activated carbon, the space should be evaluated for oxygen and carbon monoxide concentrations, and any other hazards, by a qualified person.

### 7.3. Specific end use(s)

**Risk Management Methods (RMM)** Per Article 14.4 of the REACH Regulation no exposure scenario has been developed as the substance is not hazardous.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Exposure Limits

Exposure limits for components or similar components are stated below.

Chemical name	Activated Carbon 7440-44-0
Austria	TWA: 5 mg/m <sup>3</sup> STEL 10 mg/m <sup>3</sup>
Poland	TWA: 6 mg/m <sup>3</sup>
Chemical name	Quartz (respirable) 14808-60-7
European Union	TWA: 0.1 mg/m <sup>3</sup>
Austria	TWA: 0.05 mg/m <sup>3</sup> alveolar dust, respirable fraction
Belgium	TWA: 0.1 mg/m <sup>3</sup> alveolar dust
Bulgaria	TWA: 0.1 mg/m <sup>3</sup>
Czech Republic	TWA: 0.1 mg/m <sup>3</sup> dust
Denmark	TWA: 0.3 mg/m <sup>3</sup> total; 0.1 mg/m <sup>3</sup> respirable
Finland	TWA: 0.05 mg/m <sup>3</sup> respirable dust
France	TWA: 0.1 mg/m <sup>3</sup> alveolar fraction
Greece	TWA: 0.1 mg/m <sup>3</sup>
Hungary	TWA: 0.1 mg/m <sup>3</sup> respirable
Ireland	TWA: 0.1 mg/m <sup>3</sup> STEL: 0.3 mg/m <sup>3</sup>
Italy REL	TWA: 0.025 mg/m <sup>3</sup> respirable fraction
Netherlands	TWA: 0.075 mg/m <sup>3</sup> respirable fraction
Norway	TWA: 0.3 mg/m <sup>3</sup> total dust; 0.1 mg/m <sup>3</sup> respirable dust STEL: 0.9 mg/m <sup>3</sup> total dust; 0.3 mg/m <sup>3</sup> respirable dust
Poland	TWA: 0.1 mg/m <sup>3</sup> respirable fraction
Portugal	TWA: 0.025 mg/m <sup>3</sup> respirable fraction
Romania	TWA: 0.1 mg/m <sup>3</sup> dust, respirable fraction
Slovakia	TWA: 0.1 mg/m <sup>3</sup> STEL: 0.5 mg/m <sup>3</sup>
Spain	TWA: 0.05 mg/m <sup>3</sup> respirable fraction
Sweden	NGV: 0.1 mg/m <sup>3</sup> respirable fraction
Switzerland	TWA: 0.15 mg/m <sup>3</sup> respirable dust
United Kingdom	TWA: 0.1 mg/m <sup>3</sup>
ACGIH TLV	TWA: 0.025 mg/m <sup>3</sup> respirable particulate matter
Chemical name	Dust, or particulates not otherwise specified RR-00072-6

Belgium	TWA: 3 mg/m <sup>3</sup> alveolar fraction; 10 mg/m <sup>3</sup> inhalable fraction
France	TWA: 10 mg/m <sup>3</sup> inhalable; 5 mg/m <sup>3</sup> alveolar fraction
Ireland	TWA: 10 mg/m <sup>3</sup> total inhalable; 4 mg/m <sup>3</sup> respirable STEL: 30 mg/m <sup>3</sup> total inhalable, calculated; 12 mg/m <sup>3</sup> respirable, calculated
Italy REL	TWA: 10 mg/m <sup>3</sup> inhalable particles, calculated; 3 mg/m <sup>3</sup> respirable particles, calculated
Norway	TWA: 10 mg/m <sup>3</sup> total dust; 5 mg/m <sup>3</sup> respirable dust STEL: 20 mg/m <sup>3</sup> total dust, calculated; 10 mg/m <sup>3</sup> respirable dust, calculated
Portugal	TWA: 10 mg/m <sup>3</sup> inhalable fraction; 3 mg/m <sup>3</sup> respirable fraction
Slovakia	TWA: 10 mg/m <sup>3</sup>
Spain	TWA: 10 mg/m <sup>3</sup> inhalable fraction; 3 mg/m <sup>3</sup> respirable fraction
ACGIH TLV	TWA: 10 mg/m <sup>3</sup> inhalable particles, recommended TWA: 3 mg/m <sup>3</sup> respirable particles, recommended

**Derived No Effect Level (DNEL)** As required under the EU Registration, Evaluation and Authorization of Chemicals (REACH) regulation, the Activated Carbon REACH Consortium (of which Norit is a member) developed the following Derived No Effect Levels (DNELs) for Activated Carbon based on a 90-day repeated dose inhalation toxicity study in rats: DNEL<sub>worker</sub> of 1.8 mg/m<sup>3</sup> (respirable) and DNEL<sub>consumer</sub> of 0.9 mg/m<sup>3</sup> (respirable).

**Predicted No Effect Concentration (PNEC)** According to the guidelines of the EU Registration, Evaluation and Authorization of Chemicals (REACH), a Predicted No Effect Concentration (PNEC)<sub>soil</sub> of 10 mg/kg soil was derived based on an earthworm reproduction study. No other PNECs are derived.

## **8.2. Exposure controls**

**Engineering controls** Ensure adequate ventilation to maintain exposures below occupational limits. Provide appropriate exhaust ventilation at machinery and at places where vapors from hot product or dust can be generated. Ensure that eyewash stations and safety showers are close to the workstation location.

### **Personal protective equipment**

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Hand protection** Wear suitable gloves.

**Skin and body protection** Wear suitable protective clothing. Wash contaminated clothing before reuse. Contaminated work clothing should not be allowed out of the workplace.

**Respiratory protection** Approved respirator may be necessary if local exhaust ventilation is not adequate.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls** No special environmental measures are necessary. Local authorities should be advised if significant spillages cannot be contained.

## **SECTION 9: Physical and chemical properties**

*Information given is based on data obtained from this substance or from similar substances.*

### **9.1. Information on basic physical and chemical properties**

<b>Physical state</b>	Solid
<b>Appearance</b>	Granular
<b>Color</b>	black
<b>Odor</b>	Generally odorless. May produce slight sulfur smell when wet.
<b>Odor threshold</b>	Not applicable

<b>Property</b>	<b>Values</b>	<b>Remarks • Method</b>
<b>Melting point / freezing point</b>		Not applicable
<b>Boiling point / boiling range</b>		Not applicable
<b>Flammability (solid, gas)</b>	Not flammable	
<b>Flammability Limit in Air</b>		Not applicable
<b>Flash point</b>		Not applicable
<b>Autoignition temperature</b>		No data available
<b>Decomposition temperature</b>		Not applicable
<b>pH</b>		Not applicable
<b>Kinematic viscosity</b>		Not applicable
<b>Dynamic viscosity</b>		Not applicable
<b>Water solubility</b>	insoluble	@ 20 °C, OECD 105
<b>Solubility(ies)</b>		Not applicable
<b>Partition coefficient</b>		Not applicable
<b>Vapor pressure</b>		Not applicable
<b>Relative density</b>		No data available
<b>Bulk density</b>	250-600 kg/m <sup>3</sup>	
<b>Relative vapor density</b>		Not applicable

## **9.2. Other information**

### ***9.2.1. Information with regard to physical hazard classes***

Not applicable

### ***9.2.2. Other safety characteristics***

<b>Explosive properties</b>	Not applicable
<b>Oxidizing properties</b>	Not applicable

## **SECTION 10: Stability and reactivity**

### **10.1. Reactivity**

<b>Reactivity</b>	May react exothermically upon contact with strong oxidizers.
-------------------	--

### **10.2. Chemical stability**

<b>Stability</b>	Stable under normal conditions. Stable under recommended storage conditions.
------------------	--

### **Explosion data**

<b>Sensitivity to mechanical impact</b>	None.
<b>Sensitivity to static discharge</b>	Dust can form an explosive mixture with air. Avoid generation of dust. Do not create a dust cloud by using a brush or compressed air. Take precautionary measures against static discharges. All metal parts of the mixing and processing equipment must be earthed/grounded. Ground and bond containers when transferring material.

### **10.3. Possibility of hazardous reactions**

**Possibility of hazardous reactions** None under normal processing.

**Hazardous polymerization** Hazardous polymerization does not occur.

#### **10.4. Conditions to avoid**

**Conditions to avoid** dust formation. Keep away from heat. Eliminate sources of ignition. Activated carbon (especially when wet) can deplete oxygen from air in enclosed spaces, and dangerously low levels of oxygen may result.

Activated carbons have high surface area which may cause self-heating during oxidation.

#### **10.5. Incompatible materials**

**Incompatible materials** Strong oxidizing agents. Strong acids.

#### **10.6. Hazardous decomposition products**

**Hazardous decomposition products** Materials allowed to smolder for long periods in enclosed spaces may produce amounts of carbon monoxide which reach the lower explosive limit (carbon monoxide LEL = 12.5% in air), Used activated carbon may produce additional combustion products which are based on the substance(s) adsorbed, Carbon oxides

### **SECTION 11: Toxicological information**

*Information given is based on data obtained from this substance or from similar substances.*

#### **11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

##### **Acute toxicity**

**Oral LD50** > 2000 mg/kg (rat); OECD 423.

**Dermal LD50** No data are available on the product itself.

**Inhalation LC50** > 8.5 mg/l (rat, 1 hr); OECD 403.

**Skin corrosion/irritation** Not classified. Skin irritation test, rabbit (OECD 404): Not irritating.

**Serious eye damage/eye irritation** Not classified. Eye irritation test, rabbit (OECD 405): Not irritating.

**Respiratory or skin sensitization** Not classified. Not sensitizing based on Local Lymph Node Assay (OECD 429).

**Germ cell mutagenicity** Not classified.  
 - Gene mutation in bacteria (Bacterial Reverse Mutation Assay/Ames) (OECD 471): not mutagenic.  
 - In vitro Mammalian Chromosome Aberration Test (OECD 473): not clastogenic.  
 - In vitro Mammalian Cell Gene Mutation Test (OECD 476): non-mutagenic.

**Carcinogenicity** Not classified.

**Reproductive toxicity** Not classified. Repeated dose inhalation toxicity test showed no reproductive target organ effects, and a toxicokinetic study showed no product migration to reproductive

	organs.
<b>STOT - single exposure</b>	Not classified.
<b>STOT - repeated exposure</b>	Not classified. Repeated dose toxicity study, inhalation (rat) 90 days (OECD 413): NOAEC 7.29 mg/m <sup>3</sup> (respirable). This test was conducted on activated carbon containing negligible crystalline silica; therefore activated carbon itself is not classified for STOT-RE. Although respirable crystalline silica is classified as STOT-RE1, this product contains <1% respirable crystalline silica, therefore it is not classified for STOT-RE.
<b>Aspiration hazard</b>	Based on industrial experience and available data, no aspiration hazard is expected.

## **11.2. Information on other hazards**

### **11.2.1. Endocrine disrupting properties**

<b>Endocrine disrupting properties</b>	The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher
--	--

### **11.2.2. Other information**

<b>Other adverse effects</b>	No information available.
------------------------------	---------------------------

## **SECTION 12: Ecological information**

*Information given is based on data obtained from this substance or from similar substances.*

### **12.1. Toxicity**

<b>Ecotoxicity</b>	Non toxic. The substance is highly insoluble in water and the substance is unlikely to cross biological membranes. No adverse ecological effects are known.
--------------------	---

### **12.2. Persistence and degradability**

<b>Persistence and degradability</b>	Not expected to degrade.
--------------------------------------	--------------------------

### **12.3. Bioaccumulative potential**

<b>Bioaccumulation</b>	Not expected due to physicochemical properties of the substance.
------------------------	--

### **12.4. Mobility in soil**

<b>Mobility</b>	Not expected to migrate. Insoluble.
-----------------	-------------------------------------

### **12.5. Results of PBT and vPvB assessment**

<b>PBT and vPvB assessment</b>	This substance does not fulfill the criteria for PBT or vPvB.
--------------------------------	---

### **12.6. Endocrine disrupting properties**

<b>Endocrine disrupting properties</b>	The substance/mixture does not contain components considered to have endocrine
--	--

disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

**12.7. Other adverse effects**

No information available.

**SECTION 13: Disposal considerations**

**13.1. Waste treatment methods**

<b>Waste from residues/unused products</b>	<p>Activated carbon, in its original state, is not a hazardous material or hazardous waste. Follow applicable regulations for waste disposal.</p> <p>Spent (used) activated carbon may be classified as a hazardous waste depending upon its use, the substance(s) adsorbed, and how it is ultimately managed. Follow applicable regulations for disposal.</p> <p>Recycling (reactivation) may be a viable alternative to disposal. Dust formation from residues in packaging should be avoided and suitable worker protection assured. Store used packaging in enclosed receptacles.</p>
<b>Contaminated packaging</b>	<p>Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.</p>
<b>Waste codes / waste designations according to EWC / AVV</b>	<p>Waste hierarchy to be followed (Directive 2008/98/EC on waste, article 4).</p>

**SECTION 14: Transport information**

**Note:** This activated carbon product is made by a steam activation process.

**IATA**

<b>14.1 UN number or ID number</b>	Not regulated
<b>14.2</b>	
<b>14.3 Transport hazard class(es)</b>	Not regulated
<b>14.4 Packing group</b>	Not regulated
<b>14.5 Environmental hazards</b>	Not applicable
<b>14.6 Special precautions for user</b>	
<b>Special Provisions</b>	None

**IMDG**

<b>14.1 UN number or ID number</b>	Not regulated
<b>14.2</b>	
<b>14.3 Transport hazard class(es)</b>	Not regulated
<b>14.4 Packing group</b>	Not regulated
<b>14.5 Environmental hazards</b>	Not applicable
<b>14.6 Special precautions for user</b>	
<b>Special Provisions</b>	None
<b>14.7 Maritime transport in bulk according to IMO instruments</b>	No information available

**RID**

<b>14.1 UN number or ID number</b>	Not regulated
<b>14.2</b>	
<b>14.3 Transport hazard class(es)</b>	Not regulated
<b>14.4 Packing group</b>	Not regulated
<b>14.5 Environmental hazards</b>	Not applicable
<b>14.6 Special precautions for user</b>	
<b>Special Provisions</b>	None
<b>ADR</b>	
<b>14.1 UN number or ID number</b>	Not regulated
<b>14.2</b>	
<b>14.3 Transport hazard class(es)</b>	Not regulated
<b>14.4 Packing group</b>	Not regulated
<b>14.5 Environmental hazards</b>	Not applicable
<b>14.6 Special precautions for user</b>	
<b>Special Provisions</b>	None

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### National regulations

##### Germany

**Water hazard class (WGK)**            non-hazardous to water (nwg)

##### International Inventories

##### Legend:

**TSCA** - United States Toxic Substances Control Act Section 8(b) Inventory

**DSL/NDSL** - Canadian Domestic Substances List/Non-Domestic Substances List

**EINECS/ELINCS** - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

**ENCS** - Japan Existing and New Chemical Substances

**IECSC** - China Inventory of Existing Chemical Substances

**KECL** - Korean Existing and Evaluated Chemical Substances

**PICCS** - Philippines Inventory of Chemicals and Chemical Substances

**AICS** - Australian Inventory of Chemical Substances

**TCSI** - Taiwan Chemical Substance Inventory

**NZIoC** - New Zealand Inventory of Chemicals

#### 15.2. Chemical safety assessment

A Chemical Safety Assessment has been carried out for this substance.

<b>SECTION 16: Other information</b>
--------------------------------------

**Key or legend to abbreviations and acronyms used in the safety data sheet****Legend Section 8: Exposure controls/personal protection**

TWA	TWA (time-weighted average)	STEL	STEL (Short Term Exposure Limit)
-----	-----------------------------	------	----------------------------------

**Key literature references and sources for data used to compile the SDS**
