

AAC software for communicating with symbols and text
A software for Windows devices

It includes:

- Communication
- Accessible apps
- Alternative access to other software
- Controlling other devices in your home

It is a complete communication solution that enables people to have a voice, control their environment and live more independent lives. It's designed for anyone with complex communication or access needs and includes a wide range of resources that you can control with touch, switch, eye gaze and pointing devices. You'll find grid sets for talking with symbols or text, and content for all ages and abilities.

There are many readymade resources for everyone to explore, from powerful communication tools for text to grid sets for communicating with symbols and developing literacy.

Symbol communication

Text communication
