The Public Services Agency (PSA) notifies about the results of the evaluation of the bids within the open tendering procurement procedure nr. [ocds-b3wdp1-MD-1741005175016](#) of April 09, 2025 regarding the procurement of portable biometric data collection equipment.

According to the decision of the PSA's Working Group for Public Procurement and pursuant to the provisions of Art. 71, paragraph 1, letter g) of Law no. 131/2015 on Public Procurement, the procedure for awarding the public procurement contract is annulled, as the contracting authority cannot adopt corrective measures without violating the principles set forth in Article 7 of the aforementioned Law.

On April 9, 2025, bids submitted by economic operators in the open tender procedure for purchasing portable biometric data collection equipment were opened.

During the evaluation process, the Central Electoral Commission donated seven mobile graphic stations to the PSA. Consequently, the necessity of procuring portable biometric data collection equipment via the open tender procedure disappeared, due to circumstances beyond the contracting authority's control that arose during the evaluation of the bids, rendering it impossible to conclude the contract. This decision also ensures the efficient use of public funds.

Group for Public Procurement
