

The CS Spine Frame

This innovative platform fits all standard operating tables, giving you a patient position comparable to that of a specialist spinal table but at a fraction of the cost.

Ideal for use during surgeries requiring a neutral position, for example Laminectomy and Kyphoplasty procedures.

550 lbs. (250kg) patient weight capacity

Crescent shaped chest support reduces the chance of brachial plexus injury and enables easier positioning of the breasts.

The design of the supports allows the abdomen to hang freely to reduce venal pressure.

CS Spine Frame Set

Code: CSM-2715
Qty: 1 Unit

Included Accessories

CS Comfort Covers - 3 Piece

Code: CSM-2606-1
