

1.2.1. Single row ventilating grilles for rectangular air ducts

KSH-al, KSV-al

**Use:**

Air intake or exhaust in low and medium pressure systems.

Fitting:

On rectangular air ducts and in walls. Fitted using visible screws in holes pressed in the front frame, or without visible screws using an additional pressed-in fixture RM frame.

Construction:

Front frame and blades made from pressed aluminium profiles. Horizontal blades – KSH, vertical blades – KSV, Inclination angle of blades set manually.

Material:

Aluminium, alloy 6063.

Surface finish:

Naturally anodized aluminium or powder coat coloured according to RAL catalogue.

Flow regulation:

Using a P type counter directional damper. Flow regulation carried out from the front without the necessity of dismantling the grille.

Certificates:

Technical recommendation: RT-ITB-1147/2009

Hygiene certificate: HK/B/1705/02/2008
