

PHA-020

30 LT MODULAR PEDAL WASTE BIN SET - INFECTED MEDICAL WASTE

Product Specifications

The waste set is produced in accordance with the Medical Waste regulation of the Ministry of Environment and Urbanization.

The set is made of impact resistant original PP Polypropylene raw material.

There are 4 caster wheels with a diameter of 40 mm on the bottom plate that ensure the mobility of the set.

The color of the bin is yellow and the color of the cover and pedal should be in the color codes chosen according to the waste determined by the ministry.

Infected medical waste set is consist of three main gorups: transport unit and the bin suitable for the transport unit and a cover separately supplied.

You can use 30 Lt and 60 Lt bins in the same transport unit when needed. It will be enough to change pedal-cover connection element.

The product can be washed with hot or cold water, disinfected.

In the designs of the bin, there are ergonomic hand grip places on the sides of the upper part of the bin so that it can be easily transported and it can be easily emptied.
