

Date: 01.04.2021

Number of the procurement procedure: ocds-b3wdp1-MD-1614258987702 of February 24<sup>th</sup> 2021

To: Victor Chironda, Head of acquisition group.

To: Mayoralty of Chisinau Municipality

**SUBJECT: ANTI COVID-19 INNOVATION TECHNOLOGIES**

We happy to inform you that Xiamen King Long United Automotive Industry Co., Ltd. being one of the leaders of bus manufacturing in China has developed a range of health systems to prevent the spread of pandemic diseases such as COVID-19:

1. Photocatalyst sterilizer system
2. Automatic sprinkler sterilizer system
3. Roof disinfection light system
4. Air circulation sterilizer system
5. Passenger detecting system

We will be happy to provide you the above-mentioned systems and technologies subject to additional agreement between both parties with the lowest possible export price.

The above-mentioned systems have been successfully installed in King Long buses delivered for China, Cyprus, Mexico and other markets according to the customer's requirement.

Sincerely,

Xiamen King Long United Automotive Industry Co., Ltd.

Wang Hongwei
